

Goals

To provide funding for projects that advance the sport of ultimate and spirit of the game. To create links between USA Ultimate and local affiliate organizers. To serve affiliate members' needs and inspire others to further innovation and excellence. The goal of the USA Ultimate Affiliate Grant program is to stimulate and support innovative ideas to develop the sport or to implement new solutions to challenges facing the ultimate community. Due to the increasing demands for limited resources, the final grant amount awarded may not reflect the amount requested. Materials and equipment purchased with grant funding MUST remain the property of the program for future usage and maximal value impact, and not retained by individual participants as one-time program use.
