Nice bid! Wooo! Yeah ultimate! Let's get you to the athletic trainer. They help us live a healthy lifestyle so we can succeed on the field...

Ultimate teaches us personal responsibility... We're a self-officiated sport, that means we have to trust each other... even our opponents.

Wasn't that a foul?! Hey let's let the kids talk it out. They trust that we're all trying to do the right thing.

And anyway, our parents have great spirit! And our parents respect that! They also teach us how to listen to our bodies and know our limits!

Spirit of the game isn't always easy! It's up to parents and kids to work together to grow, learn, and communicate! Above all, remember this: when you do the right thing, people notice!

But never at the expense of respect, fun, and joy of play! In ultimate, competitive play is highly encouraged!

Tell someone when they made a great play... or when you're proud of them for making a tough call.

Look! Great catch! If you're new to the sport and you don't know where to start, just be generous with praise!

Spirit of the game is definitely not science. Shh... don't ruin this for them. It's all they have.
